Objective

Motivated Computer Science student at Zewail City of Science and Technology with a strong foundation in frontend development and problem solving. Currently specializing in React through the Digital Egypt Pioneers Initiative (DEPI). Seeking a frontend internship opportunity to apply and expand my skills in real-world projects while contributing to modern and user-friendly web applications.

Education

Zewail City of Science and Technology

University of Science and Technology – School of Computer Science
Major: Software Development
6th of October City, Egypt
2024 – 2028

Technical Skills

Programming Languages

- C++
- JavaScript (ES6)
- Python
- SQL

Frontend Development

- HTML5
- Tailwind CSS
- React.js
- Responsive Design
- React Router

Training & Programs

Digital Egypt Pioneers Initiative (DEPI)

Frontend React Track
Completed the Frontend React Track at the Digital Egypt Pioneers Initiative (DEPI), focusing on modern frontend development using React.js and industry-standard tools.

Relevant Coursework

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Database Fundamentals
- Problem Solving

Projects

1. Rentigo – Car Rental Frontend Website

Developed a modern responsive car rental website using React with reusable components and responsive UI design. Implemented car listings, search functionality, and smooth navigation experience.

Technologies: React.js, CSS3, Responsive Design, Vite

live: https://renti-goo.vercel.app/

---

2. Speedy Rent – Car Rental Management System

Developed a console-based C++ application to manage car rentals, including car filtering, bookings, payment processing, and customer support. Applied Object-Oriented Programming concepts using a modular architecture with 14 classes.

Technologies: C++, OOP, File Handling

---

4. Cuisine Control – Restaurant POS System

Built a Python-based point-of-sale system that loads menu items from JSON files, manages orders, calculates totals, and stores data automatically. Implemented receipt-style output and menu management features through a command-line interface.

Technologies: Python, JSON, Console UI, Procedural/OOP Structure

Experience & Activities

Admission Team Member

Zewail City of Science and Technology
3-Month Full-Time Experience Zewail City of Science and Technology

- Assisted prospective students and parents throughout the admission process.
- Helped organize communication and student guidance operations.

Activities & Volunteering

Junior Teaching Assistant (JTA) – Physics

Zewail City of Science and Technology
Summer 2025

- Assisted professors in conducting physics sessions for undergraduate students.
- Explained complex concepts and solved problems during tutorials.
- Strengthened communication and academic mentoring skills.

Soft Skills

- Teamwork & Collaboration
- Problem Solving
- Time Management
- Communication Skills
- Fast Learning

Languages

- Arabic: Native
- English: Intermediate
